After being kidnapped and having the lives of his loved ones threatened, Soleil spent the last year in the clutches of a bigoted and extremely misogynistic fan of his.

He was made to marry him, service him, detransition, expose and debase himself in public. When he ended up pregnant with twins, there was nothing he could do but accept it and endure, hoping against hope he would find a way out. Of course, he didn't, and Sol eventually birthed the two children, to his dismay and the kidnapper's joy.

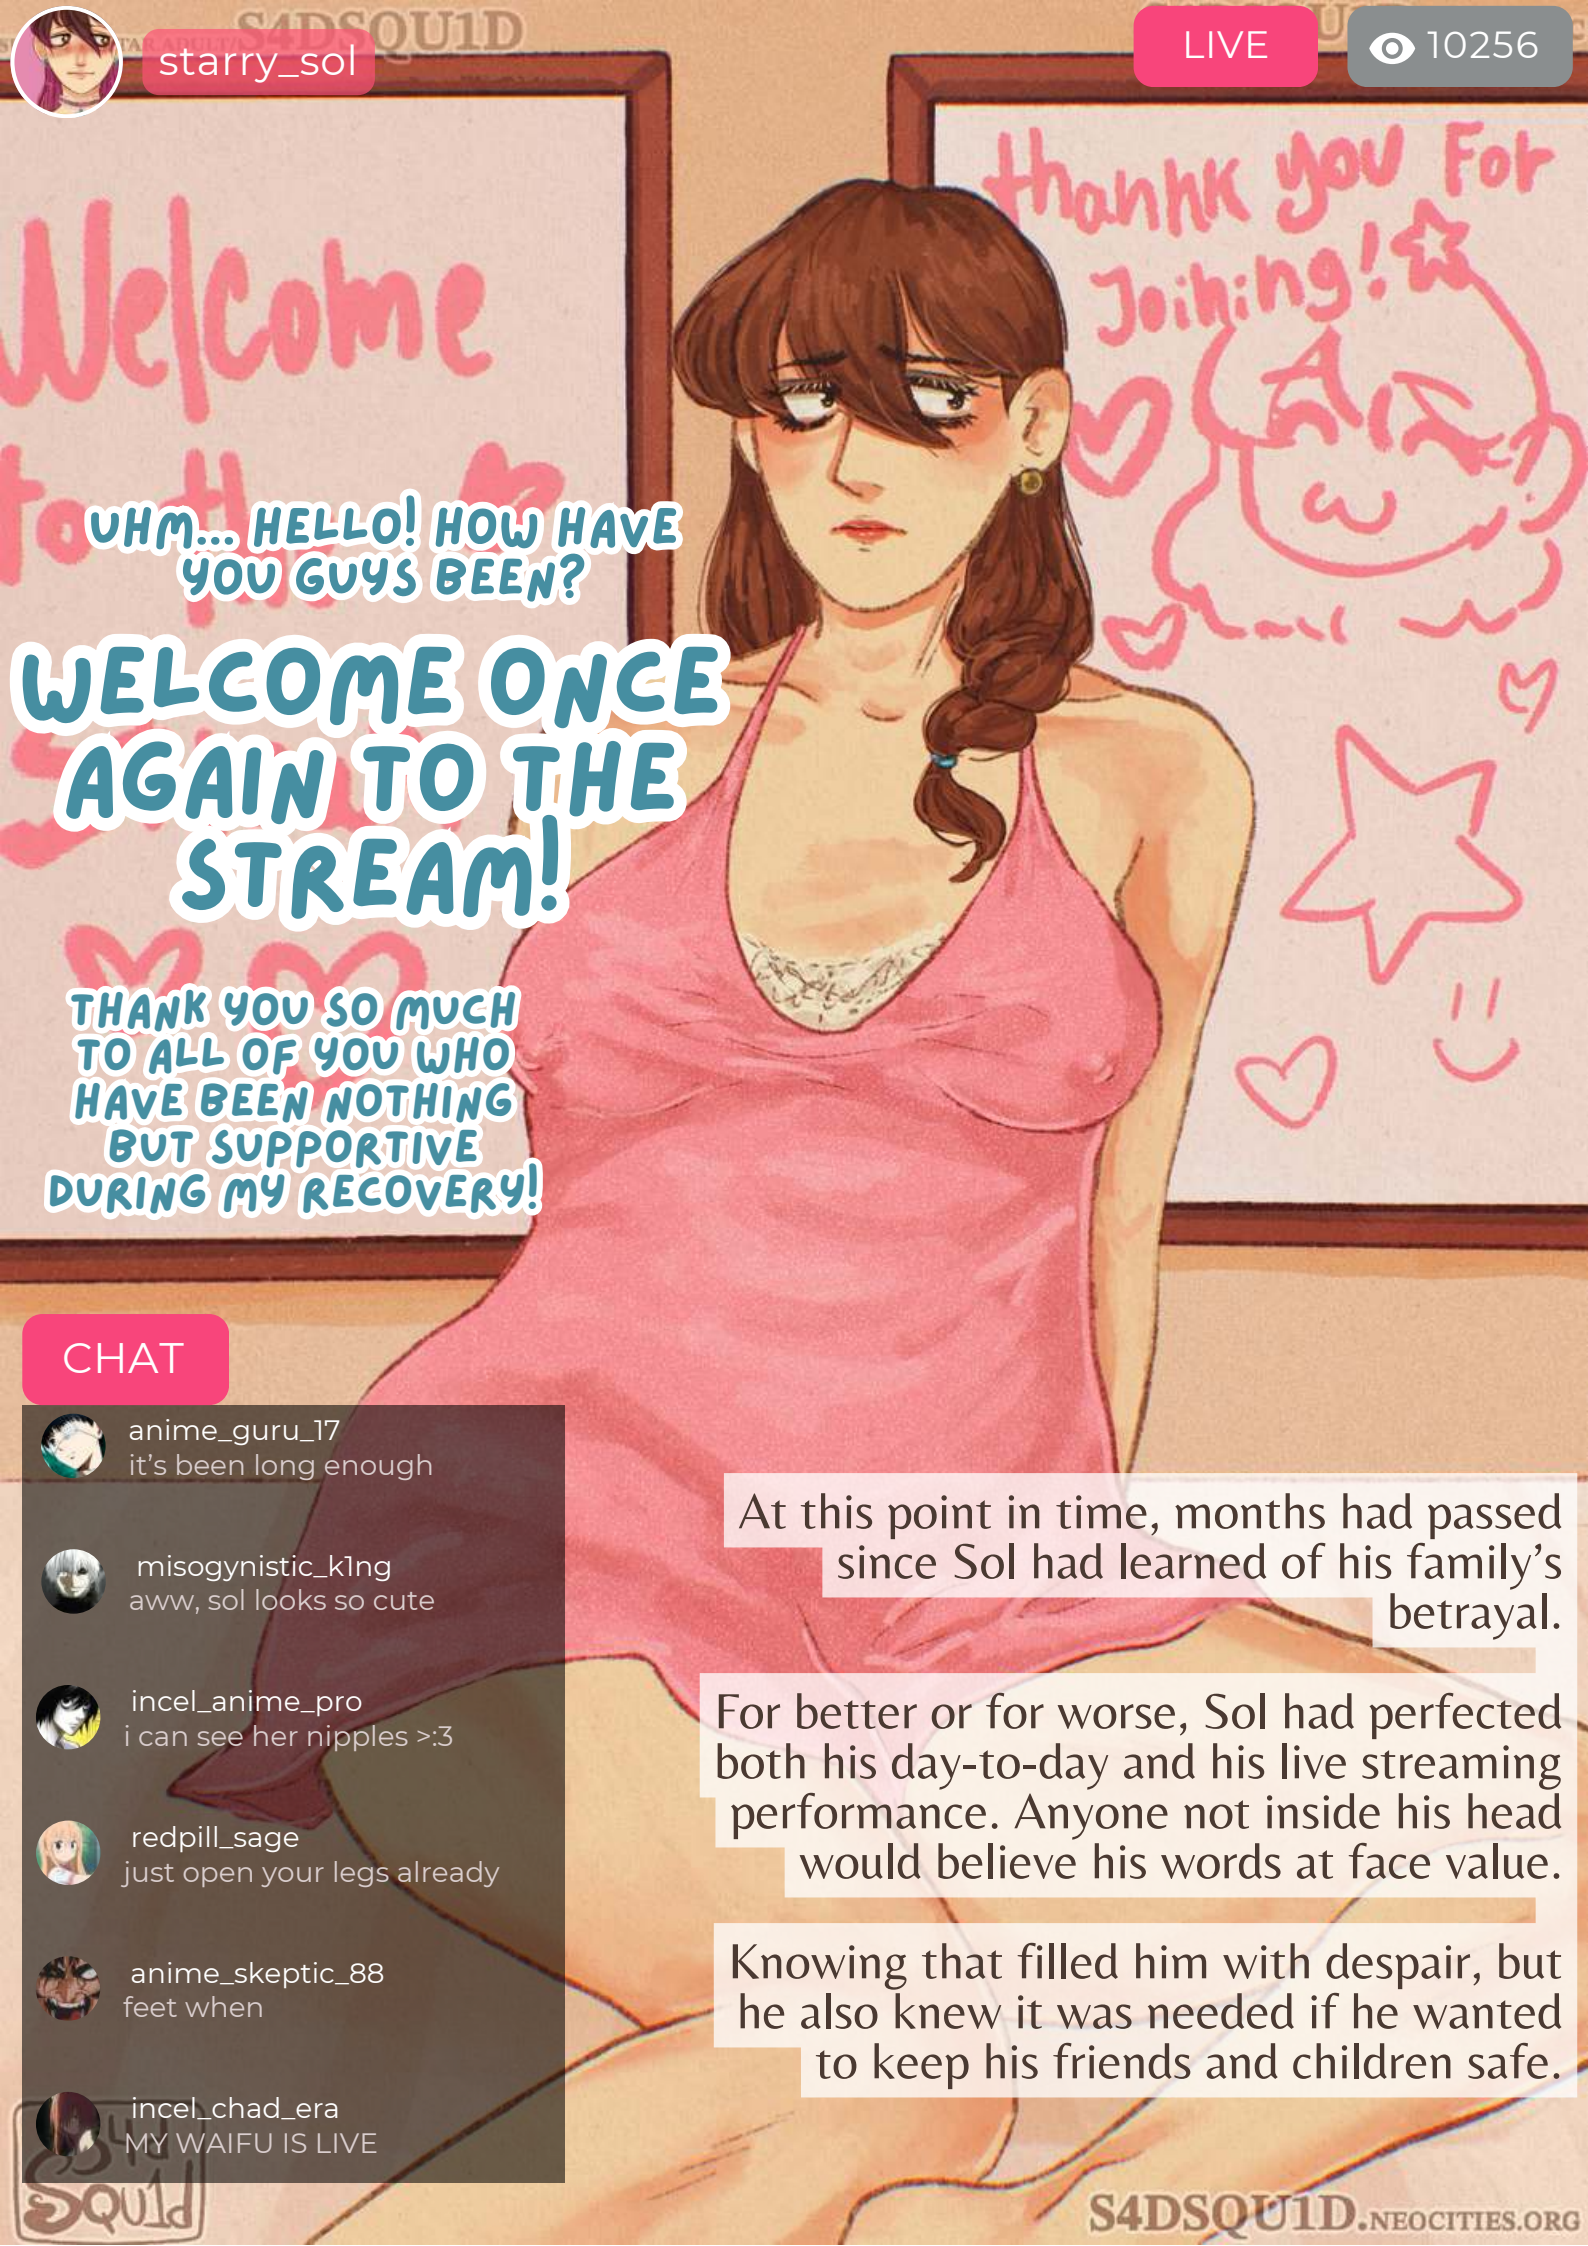

All of this just to make sure his family would remain alive and safe from that monster who swore would harm or even kill them should Sol disobey. However, after a whole year of enduring the hell that had become of his life, it was revealed that his own family had been complicit in the whole ordeal. Moreover, they had conspired with the kidnapper to make sure he would have no way to escape.

This tore any shred of hope he had somehow held on to to pieces. It was now too late for the disgraced ex-idol to try to run away from this. He no longer had the strength to try either. Not that he could. Even though his family had turned out to be snakes, just as bad as his kidnapper, his previous friends were still in danger. That man still openly threatened their lives from time to time, and Sol knew he wouldn't be able to live with himself if he actually followed up on the threats

And by then there were also his kids to consider. As much as he hated to admit it, he cared about them. They might share genetic material with the person he hates the most, but they're also his and, well ...they didn't ask to be born into this mess and Soleil didn't want to leave them at the mercy of such awful people. He now had no choice but to keep on living this lie and pretending to be a "good wife" for his kidnapper, obeying his every disgusting request, just so he can try to protect them from the worst of it all.

One of the things he was required to do was hosting those horrible livestreams at least once a week, where he would be expected to "apologize to his fans" for "betraying them". Or some other excuse his "husband" made up just to punish Sol. It was painfully obvious he got off on humiliating him, trying to pass it all as "recovery" was just an excuse. But he had no choice but to play along.

Knowing there would be no end in sight, he gritted his teeth and continued on living, trying his best not to lose the little he still kept of himself deep inside.

MY WAIFU IS LIVE

At this point in time, months had passed since Sol had learned of his family's betrayal.

For better or for worse, Sol had perfected both his day-to-day and his live streaming performance. Anyone not inside his head would believe his words at face value.

Knowing that filled him with despair, but he also knew it was needed if he wanted to keep his friends and children safe.
